A Quick Glimpse at the Conference Line-Up...

A Comparison of Stream Flow Prediction Methods

Paul Guillet - Professional Engineer and Certified Floodplain Manager, LaBella Associates

Learn about estimations for stream flow and the primary methods used such as stream gauges, regression equations, and rainfall-runoff calculations. Paul will discuss the importance of stream flow interpretation for infrastructure design.

Up a Notch: Lake George Standards and Applications (Good and Bad)

Joe Thouin—Environmental Analyst, CPESC, Professional Hydrologist, Lake George Park Commission

An update on changes to stormwater regulations, unique designs for small scale hydrology, as well as the do's and don't from a reviewer's perspective on project implementation.

Membrane Application and Consideration for Stormwater Treatment

Wes Alexander - Membrane Specialists, LLC

Investigating membrane technologies such as the fundamentals of membrane construction, technology, limitations, and applications for water quality and project design.

More featured presentations from Team EJP (Stormwater Mitigation), D.A. Collins Companies (Drone Uses), and Wilderness Property Management Inc. (Stormwater Management for Natural Trail Design)
